SECTION 2. Hazards Identification

Classification of the Substance or Mixture

GHS – Classification

Acute Oral Toxicity - Category 4
Acute Inhalation Toxicity - Category 4
Eye irritation (Category 2A)
Acute aquatic toxicity (Category 3)

GHS Label Elements

Pictogram

Signal Word

WARNING

Hazard Statements

H302: Harmful if swallowed
H319: Causes serious eye irritation
H320: Causes eye irritation
H330: Fatal if inhaled
H331: Toxic if inhaled
H332: Harmful if inhaled

H303 May be harmful if swallowed.
H319 Causes serious eye irritation.
H402 Harmful to aquatic life.

Precautionary Statements

P261 Avoid breathing mist, vapors, spray.
P264 Wash hands thoroughly after handling.
P270 Do not eat, drink or smoke when using this product.
P271 Use only outdoors or in a well-ventilated

SECTION 3. Composition/Information on Ingredient(s)

Active Ingredient:

Component Name	CAS#/Codes	Concentration	GHS Classification
Benzethonium Chloride	121-54-0	Proprietary	H301; H314; H400

Inactive Ingredients:

Component Name	CAS#/Codes	Concentration	GHS Classification
Benzyl Alcohol	100-51-6	Proprietary	H302 + H332-H319
Disodium Edetate	60-00-4	Proprietary	H303; H319; H402
Glycerin	56-81-5	Proprietary	Not classified
Polyquaternium 10	535568-66-4, 54351-50-7, 55353-19-0, 6861092-4, 81859-24-7	Proprietary	H400
Polysorbate 20	9005-64-5	Proprietary	Not classified
Purified Water	Not available	Proprietary	Not classified
Sodium Citrate	6132-04-3	Proprietary	Not classified

SECTION 4. First Aid Measures

Skin Exposure: No first aid should be needed.

Eye Exposure: Check for and remove any contact lenses. In case of contact, immediately flush eyes with plenty of water for at least 15 minutes.

Inhalation: No first aid should be needed.

Ingestion: Dilute by drinking water. DO NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person.

After first aid, get appropriate in-plant, paramedic or community medical support.

Persons developing hypersensitivity reactions should receive medical attention. If breathing is difficult, give oxygen. If not breathing, give artificial respiration. Take a copy of label and SDS to physician or health professional with the contaminated individual.

SECTION 5. Fire Fighting Measures

Flash Point: >205°C

Flash point method: TCC

Burning rate: Not determined

Autoignition Temperature: Not determined

Flammability classification: Class IIIB

Flammability of the product: May be combustible at high temperature

Fire Extinguishing Media: Use extinguishing media appropriate for surrounding fire.

Suitable extinguishing media: Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide

Unsuitable Fire Extinguishing Media: None known.

Hazardous combustion products: None known

Explosion hazards in presence of various substances: Risks of explosion of the product in presence of mechanical impact: Not available. Risk of explosion of the product in presence of static discharge: Not available.

Fire-fighting instructions: Do not release runoff from fire control methods to sewers or waterways.

Fire-fighting equipments: Self-contained breathing apparatus and protective clothing should be worn.

SECTION 6. Accidental Release Measures

Spill and Leak Response: Proper protective equipment should be used. In the event of a spill, clear the area and protect people.

Small Spills: Use appropriate tools to put the spilled product in a convenient waste disposal container. Finish cleaning by spreading water on the contaminated surface and dispose of according to local and regional authority requirements.

Large Spills:

Containment: Not required

Cleanup: Soak up spills with sorbent, flush area with water.

Regulatory requirements: Follow applicable OSHA regulations

SECTION 7. Handling and Storage

Handling precautions: None

Storage and Handling Practices: Employees must be trained to properly use this product. Use of this product should be performed in a designated area for working with drugs. Ensure product is properly labeled. Store this product away from incompatible materials. Store this product in original container.

Product Preparation Instructions for Medical Personnel: Handle this material following standard medical practices and following the recommendations presented on the Package Insert.

SECTION 8. Exposure Controls/Personal Protection

Engineering Controls: None required for normal use

Ventilation: Use with adequate ventilation. Follow standard medical product handling procedures.

Administrative controls: None required for normal use

Respiratory Protection: A respirator is not required for routine conditions of use of this product.

Protective clothing/Equipment: None required for normal use

Comments: Never eat, drink or smoke in work areas. Practice good personal hygiene after using this material, especially before eating, drinking, smoking, using the toilet or applying cosmetics.

SECTION 9. Physical and Chemical Properties

Appearance and Color: This product is a Clear colorless liquid

Odor threshold: Not determined

Density: Not determined

pH at 25°C: 6.3

Boiling Point: 100°C

Melting Point: N/A

Evaporation Rate (nBuAc = 1): <1

Solubility in Water: Easily soluble in cold water, hot water.

Vapor Pressure (mm Hg): 13

Specific Gravity (water = 1, at 25°C): 1.02

Odor Threshold: Not established

Refractive index: Not determined

Surface tension: Not determined

SECTION 10. Stability and Reactivity

Reactivity/Chemical Stability: This product is stable.

Chemical Incompatibilities: Anionics

Hazardous Polymerization: Will not occur.

Conditions To Avoid: None known

SECTION 11. Toxicological Information

Carcinogenicity: Not available

Eye effects: None known

Skin effects: None

Chronic effects: None known

Mutagenicity: None

Acute oral effects: None known

Teratogenicity: None known

SECTION 12. Ecological Information

Ecotoxicity: Not available

Environmental Fate: Degradable

Solid Absorption/Mobility: Not determined

Environmental Degradation: Complete

SECTION 13. Disposal Considerations

Disposal Methods: Contact your supplier or a licensed contractor for detailed recommendations. Waste disposal must be in accordance with appropriate regulations. This product, if unaltered by use, may be disposed of by treatment at a permitted facility or as advised by your local hazardous waste regulatory authority.

Disposal regulatory requirements: None known

Disposal Containers: Discard in suitable trash container. Ensure that any required marking or labeling of the containers be done to all applicable regulations.

Precautions to Be Followed during Waste Handling: Wear proper protective equipment when handling waste materials.

SECTION 14. Transport Information

This product is not regulated under DOT CFR 172.101

SECTION 15. Regulatory Information

EPA Regulation: None known

OSHA regulation: None known
